### **Rotator Cuff Rehab Protocol**

Thomas Burns, MD

#### **WEEKS 1-4**

Range of motion

- Passive ONLY
- Home stretches
- Pendulum exercises

Strength

- No rotator cuff contraction

Sling

#### **WEEKS 5-8**

Range of motion

- Goal is full motion in all planes at end of 6-8 weeks
- Continue home stretches

Strength

- Active assisted ROM, progressing to active ROM
- No resistance except gravity

Remove sling

#### **WEEKS 9-12**

Range of motion

- Should attain full ROM if no extraneous factors

Strength

- Progress to light resisted exercises
- Slow resistance progression

#### **MONTHS 4-6**

Progressive strengthening at home

Activity levels will depend on tear characteristics and will be discussed with physician
